

NICOLE & NICK'S

Adoption Profile

Hi there!

We are Nicholas and Nicole originally from northern New York and now living in central New York. We have been together for four years and we got married on September 13, 2014. We had tried to conceive for about ten months and with us being younger, we knew something was not right. This is when we finally learned that there was no possible way for us to get pregnant. Right away we knew we were meant to adopt! We hope that by looking at our profile, you can learn more about us and become more familiar with our lives.

Our Parenting Philosophy

We both grew up in very loving, encouraging and nurturing environments. We were both raised to be responsible, respectful and grateful for the things we have. We hope to teach our child these same values. We want to teach our child to be honest, respectful and hard working. We want them to learn to be compassionate by encouraging them and praising them for their accomplishments. We are happy, loving and easy going people and believe this will benefit us while raising our children.

Our Family

Our families are our number one priorities. We were both raised by amazing parents and grew up with close relationships with our siblings. Both families live about an hour and a half away, but come to visit at least once a month. We celebrate all holidays and birthdays with our families because we believe making memories is very important. Our families are so incredibly supportive of our decision to adopt and cannot wait for a baby to join the family. We have many friends who are supportive of this decision to adopt and have provided so much encouragement.

Our Home

We live in a beautiful tri-level, three bedroom, one and a half bath home. We live in a small town on a quiet street with a fenced in back yard. We spend most of our time on the back deck or the patio during the warm weather. We love planting flowers in the spring and running around out back with our two dogs, Kiara, who is six, and Maddy, who is three. Both were rescued and get along so well with children. Kiara loves to cuddle and Maddy loves to play!

Our Professions

Nick has worked in the construction field since high school. He worked as a journeyman sheet metal worker from 2008 to 2014. He installed commercial heating and cooling equipment while working at this job. When layoffs began, Nick began working in the sales aspect of this field. He has now been working for two years at a company that he is now Operations Manager at. Nicole graduated with a Bachelor's Degree in Medical Imaging from Long Island University in 2013. She has been working at a hospital as a Radiologic Technologist since graduation.

Our Activities

We both love going on random adventures together. Whether it's an unplanned day trip or just a long drive in the car. We enjoy going for walks with the dogs, golfing together, going to hockey games and going to Buffalo Bills games (Nick's favorite team). Nick's favorite hobbies are golfing and going to the gym. Nicole's favorite hobbies are being outside with their dogs and cooking new recipes. We love having our families visit or going up north to spend time with them as well.

In Closing

We thank you so very much for making this brave decision and choosing adoption. This decision makes couples like ourselves so hopeful that we will someday have a family of our own. We will provide a safe and loving home for this child and will always be there for them.

Thank you so much for reading our profile!
